Washington 25, D. C.

STATINTL

Dear [REDACTED]

Thank you for addressing the Thirty-fifth Class on the economic potential of the Soviet Union. Your clear and comprehensive discussion of this subject has significantly contributed to our students' understanding of this element of power and its effects upon our national security. It has provided them with factual information upon which to base their future studies on our national strategy.

I regret that you were unable to have lunch with me. Thank you for your continued support of the College.

Sincerely,

J. STANLEY HOLTNER  
Major General, USAF  
Commandant
